

TOM MAETA AIKO

SOFTWARE DEVELOPER | LINUX & SECURE DEVELOPMENT | CYBERSECURITY ENTHUSIAST

Nairobi,Kenya | maetatom@gmail.com | +254 740899145 | LinkedIn: www.linkedin.com/in/tom-maeta254

Portfolio: <https://portfolio-maeta-tom.netlify.app/>

PROFESSIONAL PROFILE

Highly efficient and diligent IT professional with 2 years of experience in technology field. Capable leader with excellent skills in delegating responsibilities to others and supervising for effective task completion. Enthusiasm for technology hence delivering excellent services in the office setting. Commitment to upholding company policies and procedures when working with staff members and motivating team. Targeting Software Development roles, Security Engineering roles, Cybersecurity roles, Junior Penetration Tester, Application Security or IT support roles.

EXPERTISE

Software development, Vulnerability Assessment, Web Application Security, Security testing methodology, Reconnaissance, Authentication & Access Control, API Security Fundamentals, Linux Administration, Network Security, Secure SDLC, Remediation Guidance, Technical Documentation, Team Collaborator, Problem Solver, Good Communication Skills, Time Manager.

TECHNICAL SKILLS

Software Development & Deployment: Secure- Frontend/Backend/Database design, development, testing, deployment.

Security: Vulnerability assessment, web application testing security-focused code review fundamentals.

Operating Systems: Linux, Ubuntu, Arch Linux / BlackArch exposure, Kali Linux exposure, Windows.

Development: React, JavaScript, Tailwind CSS, Node.js, Express.js, REST API integration, responsive

Tools & Programming languages: MySQL, XAMPP, Docker, Git, GitHub, Python, PHP, JavaScript Laravel, C++.

EDUCATION AND PROFESSIONAL QUALIFICATIONS

- **Professional Certification in English for IT 1 – Cisco Networking Academy 2025.**
- **Certificate in Cybersecurity and Ethical hacking – Cisco Networking Academy 2024-2025.**
- **Bachelor of Mathematics and Computer Science – Meru University 2020-2024.**
- **Certificate of Fullstack Development, online course accredited – Geeks for Geeks 2024.**
- **Kenya Certificate of Secondary Education - St. Marks High School, 2015 to 2019.**

EXPERIENCE

Fullstack Developer – NZAMEY International Limited (Hybrid)

NZAMEY International limited is a Canada-headquartered company delivering professional solutions in civil engineering, infrastructure development, road construction, trade and investment services. **August 2026 – Present**

- **Developed and maintained responsive, scalable web applications using React, Tailwind CSS, Node.js, Express, and MySQL.**
- **Designed and implemented secure RESTful APIs to support seamless communication between frontend applications and backend services.**

- **Built reusable and responsive user interface components, improving usability, consistency, and overall application performance.**
- **Applied secure coding practices, including input validation, error handling, API protection, access control, and data security**
- **Implemented secure authentication, authorization, session management, and role-based access control for multi-user applications.**
- **Diagnosed and resolved application bugs, backend errors, database issues, and performance bottlenecks across the full technology stack.**
- **Managed application deployments, environment configurations, version control, and production updates using Git and modern deployment workflows.**
- **Regularly reviewing and refactoring existing code to improve the performance of the code.**
- **Refactored existing code** and improved performance metrics.

Founder | DevOps Engineer - NexoShield Technology Solutions

Software and cybersecurity services technology-company startup based in Nairobi-Kenya. **Jan 2026-Present**

- Founded and led the startup's technical direction, product development, and infrastructure strategy.
- Built and maintained CI/CD pipelines to automate software testing, deployment, and releases.
- Managed cloud infrastructure, Linux servers, application deployments, and system security.
- Collaborated with developers to improve reliability, performance, scalability, and deployment efficiency.
- Implemented monitoring, backup, access control, and incident-response practices.

Software Developer – Upwork (Remote)

Upwork Global Inc., formerly Enlace-o Desk is an American freelancing platform. **May 2024 – Present**

- **Design and Development**-wrote, tested and maintained code for web applications and systems.
- **Testing and Debugging**- Unit testing to ensure client components of the project are functioning.
- **Maintenance and Support**- implementing updates, patches to boost software security.
- **Research and Learning** -Keeping up with the industry trends, technologies to gain skills.
- **Setting up and managing firewalls to protect** the network from external exploitation.
- **Actively seeking, incorporating peers and fellow developers** to improve skills and performance.
- **Regularly reviewing and refactoring existing code to improve the performance of the code.**
- **Successfully delivered software projects on time,within the estimated budget.**
- **Refactored existing code** and improved performance metrics.

IT RISK CONTRACT – Kenya Airways(KQ)

Kenya Airways(KQ) is the national flag carrier airline responsible for overseeing for providing safe,reliable and sustainable aviation transport services. **May 2025-July 2026**

- **Conducted IT risk assessments** to identify operational access-control and system vulnerabilities.
- **Supported IT governance,risk and compliance operations** under the lead of senior security engineer .
- **Computer cpu maintenances and computer repair.**
- **Installation network and operating systems** including server side.

- **Monitored systems and infrastructure for security incidents and abnormal activities.**
- **Successfully installed and implemented Network infrastructures**
- **Provided IT support to** and other departments.
- **Network troubleshooting.**
- **Collaborated with developers and infrastructure teams to ensure IT risks were identified and resolved within agreed timeline.**

CyberSecurity Intern – Future Interns (Remote)

Future Interns is a short-term, skill-first learning and experience platform built to bridge the gap between education and real-world work. The company is located in India.

May 2026-April 2026

- **Performed web application vulnerability assessments** using Nmap and OWASP ZAP to identify security weaknesses and misconfigurations.
- **Conducted network scanning and reconnaissance to detect open ports.**
- **Analyzed and classified vulnerabilities based on risk severity** (Low, Medium, High) and documented remediation strategies aligned with industry security practices.
- **Investigated phishing email samples by analyzing headers, suspicious links, spoofed domains,** and social engineering techniques to detect malicious campaigns.
- **Assessed API endpoints for missing rate limiting, insecure authentication mechanisms,** and insufficient input validation.
- **Documented security findings, exploitation scenarios, and mitigation strategies** in professional manner.

IT SUPPORT INTERN - Ministry Of ICT And Digital Economy

The Ministry of ICT and Digital Economy is leading ministry responsible for overseeing development and implementation of policies related to information and communication.

June 2023-November 2023

- **Software installation and updates.**
- **Network troubleshooting** and Ethernet fixing.
- **Computer CPU maintenances and Computer repair.**
- **Installation of operating systems** including, windows, Linux (Ubuntu, Kali, Mint ,Debian)
- **Debugged and added new features to Ministry's website** and implemented some changes in their database system successfully.
- **Successfully installed and implemented Network infrastructures** in the Ministry
- **Provided backup support to ICT** and other departments.
- **Collaborated with other departments of the Ministry** in order to centralize the database.

RELEVANT TRAINING | SHORT COURSES AND VOLUNTEERING

- Certificate Introduction to Cybersecurity and Ethical Hacking-CISCO 2024
- Certificate in Full stack Development – GEEKS FOR GEEKS 2024
- Volunteer CITAM Assemblies (Media Team).
